GHS Labels

- 1** Signal Word: Indicates hazard level. "Danger" is severe, "Warning" is less severe.
- 2** GHS Symbols (Hazard Pictograms).
- 3** Manufacturer Information: Identifies the company name, address and phone number.
- 4** Precautionary Statements/First Aid: Information tied to each hazard statement. Provide general preventive, response, storage or disposal precautions.
- 5** Hazard Statements: Phrases that describe the nature of the chemical and degree of the hazard.
- 6** Product Name or Identifiers: Product or chemical name. Additional information can be noted to the right of the manufacturer's information.

All chemicals at Function of Beauty must be labeled. Never use a chemical from an unlabeled container!
